

INSIGHT Registration and Additional Licenses

Insight Registration

Installing INSIGHT Professional grants you a 30-day temporary license for all Professional features and functions (**INSIGHT will revert to LITE functionality after 30 days**). During this time you must register the product to receive your permanent Professional license key. Simply fill out the **INSIGHT REGISTRATION FORM** and fax it to Inner Range and your registration key will be sent to you either electronically or by telephone. Please be sure to save the permanent license key number for future use and / or reference.

Use the Insight License Manager to obtain the serial number required by this form and to inspect the status of your licenses.

Insight: Additional Licenses

INSIGHT Professional initially allows connections with **one panel and one workstation at a time**. To increase the number of panel and workstation connections additional licenses must be purchased. To order additional licenses simply fill out the **ADDITIONAL LICENSE ORDER FORM** and fax it to your local Inner Range office.

Insight: Advanced Reporting Licence

The "Advanced Reporting Module" for Insight Professional replaces the "Time on Site Module" and contains:

- Time on Site Report
- Muster Report
- Report designer tool

The "Time on Site Report" allows operators of the Insight software the ability to calculate, per user or employee, the amount of time spent "on site" and then present this data in an easy to read and understand report.

The "Muster Report" allows one to designate an area in the system as a muster point, then gives the last time that each user accessed that area.

The "Report Designer Tool" allows total control over report output, giving the operator complete flexibility to generate reports for all requirements.

To enable this capability on Insight an additional license must be purchased. To order additional licenses simply fill out the **ADDITIONAL LICENSE ORDER FORM** and fax it to your local Inner Range office.

Insight: PhotoID License

PhotoID is an optional module which allows "Photograph Identification Cards" to be designed and printed from within Insight Professional. To enable this option on Insight an additional license must be purchased. To order additional licenses simply fill out the **ADDITIONAL LICENSE ORDER FORM** and fax it to your local Inner Range office.

Insight: COM Interface License

Now developers can write COM objects to allow 3rd party applications such as ERP, payroll systems, etc. to communicate with Insight and interrogate it's database to retrieve Review data and some panel configuration information. To enable this capability on Insight an additional license must be purchased. To order additional licenses simply fill out the **ADDITIONAL LICENSE ORDER FORM** and fax it to your local Inner Range office.

Insight: PMS Interface License

This option allows automatic programming of a panel based on an output file from a hotel's PMS. It will require modification to the PMS such that it can output a file containing the following fields: Guest Name, Room Number, Site Code and Check-out. This file can then be read by Insight and automatically modify panel programming accordingly.

To enable this capability on Insight an additional license must be purchased. To order additional licenses simply fill out the **ADDITIONAL LICENSE ORDER FORM** and fax it to your local Inner Range office.

Insight: DVR Integration License

This module allows up to three DVR units to be interfaced with Insight. To enable this capability on Insight an additional license must be purchased. To order additional licenses simply fill out the **ADDITIONAL LICENSE ORDER FORM** and fax it to your local Inner Range office.

Insight: Extra DVR License

Each Extra DVR License allows one extra DVR unit to be interfaced with Insight in addition to the three units allowed in the DVR Integration Module. To enable this capability on Insight an additional license must be purchased. To order additional licenses simply fill out the **ADDITIONAL LICENSE ORDER FORM** and fax it to your local Inner Range office.
